**DETAILED ACTION**

***Response to Amendment***

1. Applicant's amendment filed on December 20, 2004 has been entered. Claims 7 and 15 have been amended. No claim has been added, or cancelled. Claims 1-17 are still pending in this application, with claim 1 being independent.

***Allowable Subject Matter***

2. Claims 1-17 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant teaches headlamps having a reflector supported within a housing by a pivot and a vertical adjuster mechanism. The adjuster mechanism includes an adjustment member having first and second ends, the second end being moveably received within a channel fixedly connected to the reflector. The adjustment member being movable between advanced and retracted positions, such movement causing the reflector to be vertically adjusted as the second end moves within the channel.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the recited adjustment member in combination with the headlight assembly as claimed.

Iijima (U.S. Pat. 5,573,326) disclose adjuster mechanisms for vehicle headlamps, such mechanisms having threaded adjusting members fixedly attached to a

headlamp housing, and ball-shaped nuts threadably coupled to the adjusting members.

The nut is received within a channel fixedly connected to the reflector, rotation of the adjusting member causing the reflector to be vertically adjusted by means of the nut/channel arrangement. However, the adjusting member of Iijima while able to rotate with respect to the housing, can not be move between retracted and advanced positions, such movement translating in the reflector being vertically adjusted.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
